*Samples are taken from the beginning of each coil.

** ASSAN Aluminum permits to transfer relevant test results obtained by inspection on incoming products for the purpose of traceability

***Tests and equipments;

-Tensile test : ZWICK Z50 or ZWICK 1478, EN 10002 or AA (depending on customers' requests)

-Spectral Analysis : ARL 4460

-Hardness test : ZWICK 3212, EN ISO 6506

-Cupping test : ERICHSEN, DIN 50101
